

Stäubli at ITMA Asia 2021

[S staeubli.com/bg-bg/news/detail/0/staeubli-at-itma-asia-2021](https://staeubli.com/bg-bg/news/detail/0/staeubli-at-itma-asia-2021)

Stäubli is glad to be back on stage on a live-event for ITMA Asia 2021 taking place in the SNIEC in Shanghai. Visit Booth C21 in Hall 3 for the latest information on our broad range of automation solutions for weaving preparation, high-speed cam motions, rotary dobbies, Jacquard weaving machines, and ingenious Stäubli solutions for process automation in sock knitting.

Visitors are invited to meet with us and discuss their needs with our experts. They will listen carefully to understand your requirements and goals, analyze your situation in detail, including all local and specific constraints, and propose an **ideal machinery solution** for your mill.

Stäubli will make sure you get the best total return on your investment, with long-lasting machinery that reliably operates at the highest efficiency to constantly produce top-quality results.

Our worldwide network, including our Chinese main branch in Hangzhou and other Chinese local offices, provide weaving mills speedy local support and a wide range of services, keeping you agile and competitive in the challenging textile industry.

ITMA Asia 2021 is a unique opportunity for you to find out more about Stäubli solutions for increasing your productivity. The Stäubli team looks forward to seeing you in Shanghai!
